

QUEST INTRODUCES THE MEMBERS OF ITS NEWLY-ESTABLISHED MANAGEMENT ADVISORY BOARD, APPOINTS NEW MANAGER OF EXPLORATION

- *Quest appoints Mr. Jeffrey Phillips, Dr. Steven Zajac and Mrs. Amy McQuade to its Management Advisory Board*
- *Introduces its new Manager of Exploration, Mr. Pierre Guay, P.Eng*

Toronto, August 4, 2009 - Quest Uranium Corporation [TSX-V : QUC] is pleased to introduce the first members of the newly-established Management Advisory Board and to announce the appointment of its Manager of Exploration.

Management Advisory Board

The newly formed Advisory Board will be composed of a broadly experienced team of well-known industry experts, representing technical, financial and corporate-relations functions that will help Quest Uranium Corporation to effectively communicate its progress as an important investment vehicle in the Rare Earth and Uranium exploration sectors. In addition, Advisory-Board members may be asked to provide specific consulting needs and will network on behalf of the Company. The Board will offer ideas and access to unique resources and contacts that can benefit Quest. The first members appointed to the Board are:

- **Mr. Jefferey Phillips** who is currently President of Global Market Development in San Diego, California. Mr. Phillips brings extensive experience in the areas of finance, business development, and corporate communications for publicly traded companies. His past natural resource clients have included: Metallica Resources, Ultra Petroleum, Silver Standard Resources, Strathmore Uranium, Penaco Energy, Guyana Goldfields, and Boron Chemicals. He currently sits on the advisory boards for Animas Resources and Rare Element Resources. We look forward to Jeff's help in strengthening Quest's corporate development and communications strategy.
- **Dr. I. S. (Steve) Zajac** has had an illustrious 45-year career in the Canadian and International mineral industry which included the discovery and subsequent evaluation of the Strange Lake REE deposit when he was the Chief Geologist of the Iron Ore Company of Canada (IOC). Dr. Zajac obtained his BA and MSc degree from the University of British Columbia and a PhD from the University of Michigan. Steve has worked in progressively ascending roles while with IOC, Hanna Mining and its affiliates and currently has an active international mining consultancy. Quest is pleased to have Steve aboard and look forward to his technical advice and direction.

- **Mrs. Amy McQuade** is Vice President of Global Market Development (GMD) in San Diego, California. Prior to joining GMD, Amy was Vice President of Business Development for the Western U.S. and Asia for the American Stock Exchange (AMEX) for twelve years. She worked with IPO's, reverse mergers, and transfers from other exchanges. Prior to joining the Amex, she spent seven years at Lehman Brothers in Fixed Income Trading and Global Asset Management. She graduated from Lafayette College with a degree in Finance and pursued graduate studies at Columbia University. We look forward to Amy's contribution towards assisting in the building of Quest's corporate development strategy and international investor profile.

Manager of Exploration – Mr. Pierre Guay, P. Eng

Quest is also pleased to announce that Mr. Pierre Guay has joined Quest in his capacity as the Manager of Exploration. Mr. Guay was previously an Area Geologist with Vale Inco Exploration and has worked for Vale (formerly Inco Limited) for the past 19 years. Pierre received his Bachelor of Geological Engineering from the University of Québec at Chicoutimi in 1987 and has had a broad-ranging international mineral exploration career. His 22 years of experience in all aspects of exploration, from grassroots field work through to Mine production feasibility, will be an invaluable asset for Quest as it expands its exploration capacity going forward. Pierre will lead all of the exploration activities of the Corporation.

About Quest Uranium

Quest Uranium Corporation is a Canadian-based, exploration company focused on the identification and discovery of new world-class uranium and REE deposit opportunities. The company is publicly-listed on the TSX Venture Exchange as "QUC" and is led by a highly-respected management and technical team with a proven mine-finding track record. Quest is currently advancing several high-potential projects in Canada's top frontier exploration areas: the George River Belt of northeastern Québec, the Kenora area of northwestern Ontario and the Plaster Rock area of northwestern New Brunswick. Quest is also actively pursuing additional, high-potential project opportunities throughout North America as a supplement to its already strong property portfolio.
